WE ARE AHEAD

WE ARE AUTHENTIC

WE ARE PASSIONATE

WE ARE CREATIVE

WE ARE MAKERS

WE ARE SUSTAINABLE

More than ever, we are dedicated to offer
you **premium** and **innovating apparel** and
the **best level of service** in the sports market.
We are proud to reveal
our collection in this brand new lookbook.
We wish you a full year of success by our side.

WHY WE DO NOT USE RECYCLED POLYESTER IN OUR CLOTHING

Among the trend is recycled plastic bottles being turned into fabrics which are considered sustainable to keep from them piling in the landfills. If plastic bottles don't belong in the landfills, they certainly don't belong on the body.

The recycled plastic bottle fiber trend is not healthy. For one, not all plastic is BPA free. We then submit our body to BPA. Through the extraction of BPA, Bisphenol is not removed, and is equally as toxic. Skin does not work like the liver, it doesn't filter toxins. The chemical toxins go through the skin into the bloodstream and spread throughout the system.

This whole process is chemical based. It takes thousands of chemicals to make plastics, thousands of chemicals to break down the plastics, thousands of chemicals to remake the plastics into the polyester fibers, and then more chemicals added to the fibers to finish the fabric such as the dyes, whitening agents, and chemical laden finishing agents.

These chemicals in our clothing can then leach and off-gas onto our skin where they get directly absorbed through our pores. Once absorbed,

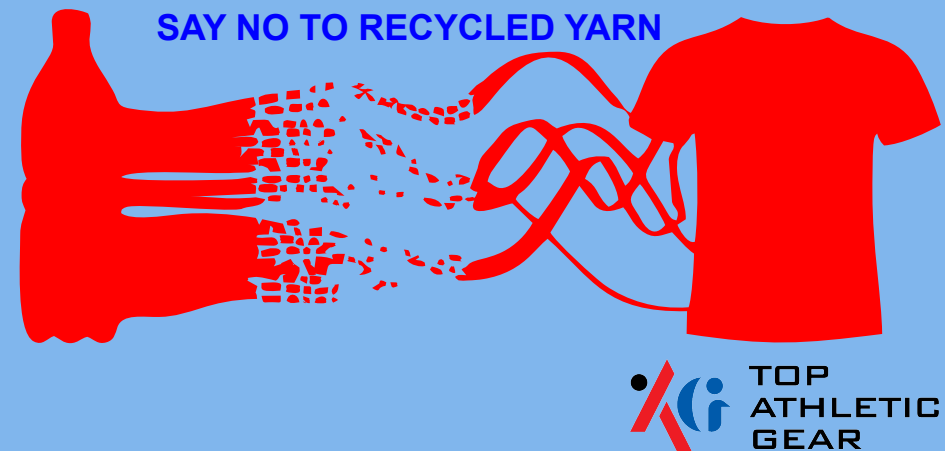

These chemicals get into our bloodstream, tissues and our cells; affecting our body and bodies systems with a myriad of problems. Skin problems caused by recycled yarn are

rashes, itching, redness and dermatitis

Instead, opt for clothing made from fresh yarns

HOW TO RECOGNIZE RECYCLED YARN IN A GARMENT

- Ÿ The handfeel is coarse
- Ÿ The surface is rough
- Ÿ Creates friction when rubbed against Skin
- Ÿ Has less stretch and elasticity

STATE OF THE ART FEATURES

Apex

DESCRIPTION: Our Varsity and Apex softshell jackets offer two distinct looks. The Varsity is a classic collegiate design and the Apex is a stylish softshell equally at home in a sports or corporate environment. Both are manufactured from our heavyweight 4-way stretch woven Protek softshell fabric. This fabric offers the highest degree of comfort, and range of motion with a beautiful finish and drape. Protek is also wind and water resistant. Makes excellent winter jackets when combined with our optional polar fleece liner.

Hybrid

Hybrid - Docker Profile

DESCRIPTION: Our Elements Jacket is manufactured from our H2O waterproof fabric and features a full zip hooded design with zippered side pockets. The jacket can be ordered with a variety of liners to suit the season. Makes a great sideline and/or team jacket. For a more economical alternative the Elements Jacket can be ordered as a Hybrid design where parts of the jacket are sublimated and the balance is pre-dyed fabric. The Elements Hybrid Jacket is offered in two profiles - Docker and Fusion. Please refer to images for different profiles. Please note that the areas shown in gray are fully sublimated and white or colored areas are pre-dyed solid fabric. Pre-dyed fabric is available in Black, Navy and White. Please note that although fabric is waterproof the jacket is not seam sealed and therefore water may enter thru the seams.

PART #/PRODUCT: Elements Full Sublimation - AW-OWJS-550 Mens / AW-OWJS-552 Womens

SLEEVES: **\$19.95**

FAN TOWEL

DESCRIPTION: Kold Snap is a revolutionary new family of towels made from a specially designed fabrics that are designed to thermoregulate using the evaporation of water, "evaporative cooling". To use - simply wet and "snap" the towel to activate the evaporation process. This instantly cools the towel as much as 20 degrees keeping you cool on the hottest days. As towel warms you simply "snap" it again and evaporative cooling process begins again and the towel turns cold again. If towel dries simply wet it again and reuse it countless times. Kold Snaps are the new "must have" item whether you're headed to the gym, a sporting event or the beach - this cooling towel is guaranteed to relieve the heat.

PART # / FABRIC: AW-TOW-100 / Thermoregulating polyester - full sublimated
NUMBERS: Optional on towels
SIZE: 12" x 40"

COST: **\$14.95**
